

## LINER NOTES

Hey, Class...

Congratulations to everyone on a smashing class reunion!!

By all accounts, along with SO many wonderful photos, clips and Facebook posts, which serve to testify, that our 50<sup>th</sup> was a monumental and dazzling success!

Webmaster, Rick, has been busy putting together a reunion "highlights" package for our Gator archives and for the class to enjoy again and again.

As this celebration marks our 50<sup>th</sup> Anniversary as a class, we'd like to give those classmates who attended an 'encore' performance of the evening's most memorable moments, and for those classmates who could not attend due to Covid, an opportunity to share in the experience of 'being there' as closely as possible.

To that end, I would like to invite you for a 'peek backstage' and enjoy the 50<sup>th</sup> Class Reunion "book" or "production draft" of our evening Program. This 'final draft' includes just about everything that "made the cut" and was presented that evening.

You can follow the show from start to finish, which includes stage directions, speaker's dialogue and performer's performances.

The making of our 50<sup>th</sup> and how it all came to be is a story in itself, from its inception in 2018, as the title of a Beatles song, to 'curtain up' at the Lamplighter, 2022. And at several hairy moments during that time, the reunion almost didn't happen at all, save for a tremendous 'can do' Gator effort by our class and a little Gator luck. And now our 'Golden' Anniversary Celebration can take its fitting place as the crowning achievement in our shining legacy.

Enjoy the show!

Stu
